OBJECTIVE

Applied AI Engineer specializing in LLM systems, RAG pipelines, and AI automation platforms. Experienced in building production-ready AI agents using LangChain, vector databases, and PyTorch. Strong in end-to-end AI integration from model training to scalable deployment.

EXPERIENCE

Technical Engineer - China Shaanxi Overseas Engineering & Construction LLC
Feb 2025 – Present

- Resolved on-site technical issues by identifying root causes and implementing effective solutions.

Junior AI Engineer - ZFusionAI
Sep 2025 – Feb 2025

- Built LLM-powered chatbot using LangChain with RAG Architecture
- Integrated ChromaDB for semantic search and contextual retrieval

Technical Intern- Vcodez
Mar 2025 – June 2025

- Helped backend API development and automation scripting
- Contributed to AI-driven workflow improvements

EDUCATION

Bachelor of Technology – Artificial Intelligence & Data Science
Muthayammal College of Engineering**, 2025**

SKILLS

AI/ML: PyTorch, LLM, VLM, RAG, LangChain, AI Agents
Backend: Python, Flask, API Development
Frontend: React (Vite)
Tools: Git, Linux, ComfyUI, ChromaDB

PROJECTS

AI Website Builder

- Developed AI agents generating dynamic websites from user prompts
- Applied prompt-engineered content pipeline (Python, LangChain, React)

End-To-End AI/ML Cloud Platform

- Built full-stack AI system with Flask + PyTorch
- Applied RAG pipeline using ChromaDB
- Designed automated training & model selection logic

Sign Language Classification

- Trained on 10K+ dataset samples
- Achieved 80%+ real-time classification accuracy

LIVE DEMO

ABC Contracting LLC – https://abccont.com | Built and delivered client-ready website using React (Vite) with AI-assisted workflows, optimized performance, and handled complete deployment lifecycle.

ZFusionAI – https://zfusionai.info | Built and deployed AI-assisted company website using React (Vite), implemented SEO, responsive design, and managed full production hosting & DNS configuration.
